

MYSTERY MAN NOW IS OUT OF TROUBLE

Judge Alling Suspends Judgment Because of His Good Record

Louis Zukowski, the "mystery man" who was reported dead to the police, found unconscious in a yard at the rear of 133 Washington street, taken to the New Britain General hospital where he was found to be suffering from an overdose of moonshine in which the poisonous element is said to have predominated to a dangerous degree and spent yesterday in a cell at police headquarters, faced Judge B. W. Alling in court this morning.

He was pale and seemed weak from his adventures. He had very little to say about his experiences, although he told the judge he had been in New Britain for 14 years and never was arrested before. Judgment was suspended.

Woman Admits Theft.

Mrs. Rose Fratello of "somewhere in Massachusetts," 19 years old and pretty, whom the police say has left her husband at least three times, was charged with stealing from Mrs. Margaret Daley of 551 Main street. Rose came here about three weeks ago, she said, on a visit, and has roomed with Mrs. Daley. Recently Mrs. Daley missed a watch, a lavalliere, \$10 in cash, a brooch and some silk wearing apparel. The lavalliere was taken to a Hartford jeweler and the diamond taken out and put in a ring. The watch was broken and was repaired by the jeweler.

Detective Sergeant Patrick McAvay arrested Rose for the theft. She admitted taking the things and \$4.00 of the missing \$10 were recovered as was all the rest of the missing outfit. Rose admitted her guilt in court and her case was continued until tomorrow.

Woman Ill, Not in Court.

Hungerford represents Karbonik.

Myron Gordon, who was charged with driving without a license, had his case nolleed upon payment of costs.

TROUBLE IN SAXONY

Additional Troops May Have to be Sent in to Curb Outbursts of Rioting There.

By The Associated Press.

Berlin, Oct. 15.—The frequency of rioting in Saxony and the defiant stand by the Socialist-Communist ministry at Dresden are causing such concern here that the general government is prepared to send additional troops into Saxony should the situation require them.

Advices from Munich indicate that Bavaria also is watching the affairs of her neighbor state, inasmuch as some of the disorders in the Saxon industrial districts have occurred close to the Bavarian frontier.

The central government is making every effort to maintain its authority in Saxony, and General Von Mueller, commander of the Reichswehr in the state, is demanding assurances from Premier Selgner that the decrees of the military dictator will be respected. However, the Saxon government seems inclined to go its own way, and in one notable instance at least the edicts of Von Mueller have been disobeyed. This was the meeting of the Saxon proletarian defense organizations, which was held against his orders.

The Saxon diet last night rejected a motion of lack of confidence in the government by a vote of 48 to 45.

HOW YOU CAN END RHEUMATIC PAINS

German Chemistry Achieves Another Triumph

Nothing is so important in medical practice as the conquest and elimination of pain. For many years German scientists have specialized on this subject, producing many of the most important medical discoveries of the age, among which are Aspirin for the relief of headache and Novocain for painless dentistry. Now from the same source comes Bulbier Oil for Rheumatic pain, a scientific formula that penetrates the skin and tissues rapidly, soothing the pain almost instantly, and in a few minutes producing that comfortable feeling that means so much to sufferers.

Knowing that rheumatic pains must have a definite cause, these German chemists persisted in their experiments, finally arriving at the conclusion that toxic poisoning from clogged intestines was transmitted through the blood to joints and muscles causing inflammation. After that it was a problem of finding the right combination of materials to counteract and quickly end the pain.

Bulbier Oil has been used by an immense number of people with almost universal success. Many stubborn, long-standing cases have responded quickly to this remarkable lubricant. So astonishing have been the results and so universal the praise accorded Bulbier Oil by users that local druggists are glad to endorse it and will cheerfully refund your money if you are not thoroughly satisfied. Bulbier Oil is for sale in this city by The Fair Store, Millbrook & O'Brien, The Clark & Brainerd Co., Miller-Hanson Drug Co., The Dickinson Drug Co.

Where Would We Be Anyway If It Weren't For Advertising?

WHAT a lot of time advertising saves us! We need something. We see it advertised. And we go straight from where we are now to where the article is sold.

Have you ever gone around from place to place seeking for something which you knew existed but which nobody else seemed to know anything about, not even the storekeepers?

You have wasted an hour, maybe several hours, possibly half a day. You have worn out your patience, and before the end of the quest probably you began to figure that the thing which you sought was not, after all, so good as you thought it was, otherwise other people besides yourself would know something about it.

The manufacturer who advertises, invests his money, therefore, not alone to tell of the merits of his goods but to save you time. The manufacturer who is willing to pay for advertising space in newspapers or magazines in order to point out to you where his merchandise is sold, so that you may get there quicker and buy it easier, is not going to skimp or cheat in manufacturing it.

After going to all the trouble and expense of telling you just where you may find it, he is going to see to it that when you do buy it, it is good enough so that you will buy it again.

And in making up your mind about merchandise which is advertised, consider this last thought—the manufacturer can well afford to make it as good as it can be made because one sale means hundreds, even thousands of others following naturally and costing him nothing extra.

Is That So

Some doubting Thomases have been casting aspersions on the authenticity of Gilda Gray's "hula hula" dances, to the effect that they're not original or anything. But to this, Gilda makes neat rejoinder, saying she should worry or something like that, because she's copied her stuff from South Sea originals. So there!
